

VERSE 1

Whisper wildly, grip tenderly	any voice
This lullaby fortress, adrift in the sea	
Rock me gently, as I learn to live	
In this kind quiet, my bare gift	all
Deep breath double check first things first (ooh)	sop & bass (alto & ten)
Tend to the bubble before the burst (ooh)	
Breathless bitesize work arounds (ooh)	
Pinky promises to be found (ooh)	

VERSE 2

Whisper wildly, help me see	sop & alto & ten
This earth is waiting, for you and me	all
Lick your lips, cross fingers and toes	sop & alto & ten
In this kind quiet, morning light grows	all
Deep breath double check first things first (ooh)	sop & bass (alto & ten)
Tend to the bubble before the burst (ooh)	
Breathless bitesize work arounds (ooh)	
Pinky promises to be found (ooh)	

PRE-CHORUS

A world, I'd never seen, muttering sound, in front of me	alto
It bowled over it lit up, it ran ragged and it undercut	all
It brought us near and it carried us close	

CHORUS

You know you're lifting me up	ten (or any voice)
Now we can see the light glow	
Keep on going and believing	sop, ten
All that we are receiving	
Something true and brand new	
The only way is through	

PRE-CHORUS

A world, I'd never seen, muttering sound, in front of me	sop & alto & ten
It bowled over it lit up, it ran ragged and it undercut	all
It brought us near and it carried us close	

CHORUS-HARMONY

You know you're lifting me <u>up</u>	ten, <u>all</u>
Now we can see the light <u>glow</u>	ten, <u>all</u>
Keep on going and believing	all
All that we are receiving	
Something true and brand new	
The only way is	

You know you're lifting me <u>up</u>	ten, <u>all</u>
Now we can see the light <u>glow</u>	ten, <u>all</u>
Keep on going and believing	all
All that we are receiving	
Something true and brand new	
The only way is through	
Oh, oh
